

Cranham Conservatives

BY-ELECTION SPECIAL

DELIVERED AT NO COST TO THE TAXPAYER BY YOUR LOCAL CONSERVATIVES

BACK BEN FOR A £40 MILLION INVESTMENT IN ROADS

Cranham residents are to benefit from a huge roads and pavements investment programme within the Borough.

Cranham residents have consistently told us that the state of their local roads and pavements is an important issue for them.

Your local Conservatives have been campaigning for additional resources to be made available. This year £3.2 million is to be spent on upgrading roads and pavements across the Borough, and Havering has been awarded an extra £850,000 for pothole repairs by the Government, following last year's Budget.

Havering Council has also announced a £40 million Investment in the road and pavement network within the Borough over the next four years.

This is a record investment and will see the backlog of repairs cleared and the delivery of an enhanced road network.

“This record investment will transform our road network” - Ben Sewell

INTRODUCING BEN SEWELL

Since his birth in Harold Wood Hospital, he has lived in Havering his entire life. He attended St. Joseph's Primary School in Upminster, The Champion School in Hornchurch and is currently finishing his University degree.

Over the last few years, he has been actively involved in politics in the area, specifically focussing on the issues and concerns of local people. He has

worked hard with local Conservatives and has successfully helped many residents with problems and issues that they have had.

He strongly believes that he could bring a strong and fresh approach to the area to help to sustain Cranham Ward for future generations.

**A Strong Voice For
Cranham Ward**

Following the sad passing of Councillor Clarence Barrett this is an election we would rather not be participating in under these circumstances. Our sincerest condolences go out to his family and friends.

KEITH'S CORNER

Keith is our London Assembly Member for Havering and Redbridge
Our plan to put more bobbies on the beat

Keith Prince AM, our local assembly member, has announced that Sadiq Khan could put nearly 1,400 more police officers on London's streets by cutting waste in City Hall.

The Mayor could free up nearly £83 million to invest in new police officers if the Mayor reduced some of his bloated City Hall budgets down to 2016/17 levels – the year he took office.

Keith said: *"Knife crime and violent crime offences have both jumped in London over the last couple of years."*

"Instead of taking action, Sadiq Khan has proved time and time again that he has completely the wrong priorities for London."

"He has prioritised waste and spin over investing in new police officers."

SHAUN BAILEY

Our London Mayoral Candidate

Delivering more police to tackle violent crime

Violent crime in London is too high, with too many communities left feeling vulnerable. It is criminals who need to be put under pressure, not our communities.

Shaun Bailey has a plan to put more police on London's streets by rolling back the waste and perks at City Hall and adopting technology in use by other major urban police forces.

Crime Action Plan

Put more bobbies on the beat.

Fight for tougher sentences.

Tackle violent crime.

INVESTING IN HAVERING'S CCTV

Havering Council is taking the lead in tackling anti-social behaviour across the borough.

Ben is pleased to report that Havering Council is proposing to invest £250,000 in upgrading and renewing the Borough's CCTV system. The Council's CCTV is monitored by staff based at the Council's offices, enabling coordination with the local police and other emergency services. Over the last five years, video footage from the CCTV control centre has been used to help support the work of the police and contributed to criminal convictions.

"I am pleased that our council is continuing to support the work of the police by investing in CCTV. This highlights that our Council takes a zero tolerance approach to anti-social behaviour." - Ben Sewell

CLEANER STREETS IN CRANHAM

Street cleaning machines and street cleaning teams will be seen more often throughout Havering later this year as a result of a £400,000 investment by the council.

The street cleaning frequency on residential streets throughout Havering will be increased from once every three weeks to once every two weeks.

It is part of a number of measures in the Council's budget for the coming financial year, which will deliver improved local services across the Borough. Residents have told us that they expect the Council to deliver high quality local services and ensure our neighbourhoods are clean and well maintained.

On May 9th, BACK BEN!

Record Investment In Roads.

More frequent street cleaning.

Improved CCTV.

Only by electing a Conservative councillor locally, to work with our Conservative council, can we be sure to get the improvements that Cranham needs.
